The get sturdy dance is from
new York and people on tik tok
made it popular and rappers
started liking the dance
and doing it to rap music.
then people started doing
it in other states. now
to do the dance is kind of
hard but if you started
practicing you will start
knowing how to do it
easily. all you got to do
is kick your left leg out,
and your right leg to the
right then kick your left
back. and do it faster.
