

REFLECTION

Write your responses to each of the following reflection questions:

1. In my work today, I am most proud of

The volcano because I was going to use red for it but then I could not so I used different colors.

2. I think that my teacher should know

The brown mountain is a volcano with lava (pink) and ashes (black and gray). The other thing is that the blue squiggle is a river.

3. Here's a short story or additional information about my geomonster:

The monster likes to drink in the river, but when the volcano erupted he couldn't drink any more water because it was too hot.
